Experience Dunkirk at the Omni Theater, an IMAX® Dome *An action-packed 70mm 2D IMAX® film experience like no other*

Fort Worth, TX - Tickets are on sale now for *Dunkirk* at the Fort Worth Museum of Science and History's Omni Theater, an IMAX® Dome. The film opens at the Omni Theater and nationally on July 21, with early showings set for Thursday, July 20. Anticipation is growing about the technique used by director Christopher Nolan, who filmed most of *Dunkirk* with 15 perf 65mm IMAX® cameras. These specific sequences, which will expand to fill 40% more of the screen exclusively in IMAX®, will deliver unprecedented crispness and clarity and a truly immersive experience for moviegoers. Nolan previously used IMAX® cameras to film sequences in *The Dark Knight*, *The Dark Knight Rises* and *Interstellar*.

"The majority of the film will expand vertically to fill the IMAX® dome screen with vivid color, clarity and detail, unmatched by other theaters," said Omni Theater Director Jonathan Orr. "Filmgoers will hear the film on fifty speakers running on 24,000 watts of power. It all adds up to a unique giant screen experience that makes our guests feel as though they are *inside* the movie."

Dunkirk tells the story of a heroic, real-life WWII mission. In May 1940, Germany advanced into France, trapping Allied troops on the beaches of *Dunkirk*. Under air and ground cover from British and French forces, troops were slowly and methodically evacuated from the beach using every serviceable naval and civilian vessel that could be found.

The Omni Theater offers its fully immersive IMAX Experience® via an innovative tilt-domed screen. This viewing experience is the largest of its kind west of the Mississippi River, with an eight-story tall and 120-foot wide screen. The theater features 70mm film projection which combines the brightest, clearest images at almost 10 times the resolution of standard projection formats, with powerful, laser-aligned digital sound and customized theater geometry to create the world's most captivating film experience.

Dunkirk's MPAA rating is PG-13. Tickets are \$13 with discounts available to Museum members and military. Learn more and buy tickets [here](#).
